

## Phishing Email Analysis Report

### 1. Sample Phishing Email:

**Subject:** Important: Immediate Action Required - Account Suspended **From:** support@secure-bank123.com

**Email Body:** Dear Valued Customer,

Your account has been temporarily suspended due to suspicious activity.

To restore access, please verify your credentials immediately at the link below:

[Click here to verify your account](#)

Failure to do so will result in permanent closure of your account.

Thank you for your cooperation.

Bank Security Team

(This is an automated message. Please do not reply.)

### 2. Phishing Indicators Found:

- **Suspicious sender address:** The domain secure-bank123.com is not a legitimate bank domain.
- **Urgent language:** Threatens permanent account closure to create panic.
- **Suspicious link:** The displayed link is masked; the real link points to <http://www.suspect-link.com/login>, not an official bank site.
- **Generic greeting:** Uses 'Valued Customer' instead of your actual name.
- **Header anomalies:** Originates from a suspicious mail server upon header analysis.
- **Request for personal information:** Unsolicited request to verify credentials.

### 3. Conclusion:

This email contains multiple phishing traits: suspicious sender address, alarming language, misleading hyperlink, lack of personalization, and suspicious mail headers. This is a phishing attempt intended to steal your account information.

**Recommended Action:** Delete the email immediately, report it to your IT or security team, and do not click any links or provide any personal information.
